

Are you always annoyed when your kids say there is nothing to do. Or maybe sick of having your kids watching TV. Well, I have something that can get your kids outside and get fresh air.

I think there should be a bike trail in Goshen for people to ride their bikes roller blades or runners. First instead of people riding there bikes on the road the can be on paved trail. This is good because you will have people out doors.

Also people will be able to exercise. There are many over weight people. You might not have so many over weight people. People will live longer healthier lives. You might want to connect it to a neighborhood. Also cars wont have to worry about hitting or running over bikers and people.

Well now I bet your kids are not going to be bored. Now well I hope I have convinced you to making a paved trail. Well I guess I will see you on the trail.

Teddy
